WHAT IS IT?

Zoomies is a puzzly, domino-style, tile-laying game with variable scoring options.

You're a dog walker helping your pups at the dog park make friends, become the leader of the pack, collect bones, and get the zoomies. Your goal is to score the most points by matching a dog tile to the middle of the table and placing a scoring token on that tile. Tokens give you points based on adjacent dogs, bone icons, and more. Play your dogs right and you can add points to a previous token while digging up a whole new way to score. At the end of the game, score each token to see who's top dog.

WHAT MAKES IT DIFFERENT?

- **Easy Play:** Turns are simple. You play a tile and then play a scoring token on that tile. Getting into the game is quick.
- **Deep Decisions:** Do you place a tile to increase the score on a previously played tile or should you start a new dog pack? Will you place a tile to score even if it gives an opponent some points?
- **Changing Game Conditions:** Every time a tile is placed, the options change, creating exciting new ways to place tiles.
- **Double-Sided Scoring Tokens:** Each token can be played 2 different ways and there are 4 types of scores. Players must choose which scoring option to take and which to give up.
- **Growing Scores:** As the game progresses, opportunities to increase scores develop throughout the game. A token placed earlier can become more and more valuable, depending on how you place tiles.

HOW DO I SELL IT?

- **Target Audiences:** Fans of tile-laying games, dog owners, gamers who enjoy Carcassonne and Kingdomino, and players looking for a quick-playing but not-too-heavy game.
- **Elevator Pitch:** Zoomies is a puzzly tile-laying game for 2 to 4 players. Match a domino-style tile with adorable dog art to another dog, and place a scoring token. Each token adds points in one of two different ways, so players choose what to score and what to give up. As more dogs are added, new options arise for clever tile and token placement. Points aren't counted until the end of the game, so you can grow scores from previously played tokens until the last turn.

MSRP: \$24.95

Stock Number: FSD 1022

UPC: 850680002517

Made in China

Case Count: 6

Designer: Magnus Karlsson

Individual Dimensions: 8" x 8" x 2"

Case Dimensions: TBD
